

## Tech Stack

**#SWVirtualPalFinder** Social Work Virtual Pal is a global and virtual community of practice for the social work profession, that digitises the practice of having a pen pal for professional learning and networking. We developed this mobile app which focuses on connection and collaboration among social workers to offer the profession with an opportunity to harness its collective knowledge for the greater good.

First #SWVirtualPals : Dr. Amanda ML Taylor and Dr. Laurel Iverson Hitchcock

# Social Work Virtual Pal Finder

Social Work Virtual Pal Finder is a mobile application that resolves to create a space which is customized for social workers, so that it becomes easier for them to search and reach out to fellow social workers. By providing them with a digital platform to increase connectivity amongst the social worker's community we intend to aid collaboration.

Social Work Virtual Pal Finder app is facilitated by an admin panel for moderation of content and users.
